

Introducing the *Create-A-Bed*[®]
Adjustable Murphy Bed Mechanism...
the world's FIRST
fully-adjustable murphy bed
mechanism.

Until now, adjusting a murphy bed that was “too heavy” or “too light” meant taking the murphy bed apart in order to add or remove one or more bulky, hazardous metal springs. (Heavy gloves and eye protection were a must.) It’s one of the many reasons why manufacturers and customers prefer state-of-the-art gas springs instead of old fashioned metal springs.

And now - thanks to the patented Create-A-Bed[®] Adjustable Murphy Bed Mechanism - a murphy bed that is too heavy to lift easily or too light to stay on the floor can be adjusted in seconds to be perfectly balanced and effortless to lift and lower... WITHOUT removing the bed from the wall, disassembling the bed, or even removing the pillows!
